PROFILE

Proficient in HTML, CSS, and JavaScript. Actively expanding expertise in React.js and Node.js. I've had the privilege of participating in team projects, where I took on the role of Team Lead, gaining valuable leadership experience. Quickly build rapport and communication within new teams. Proven track record of actively participating in events and discussions. Developed strong soft skills through hands-on experience.

I believe in continuous learning and staying ahead in the dynamic world of technology. Excited about the challenges and opportunities that come with being a Front-End Developer.

WORK EXPERIENCE

Front-End Engineer

Kharkiv IT Cluster   March 2024 - May 2024

- During the bootcamp, I spearheaded the development of functional components, infused projects with captivating animations, and meticulously crafted comprehensive documentation. My expertise predominantly revolved around JavaScript, with a focus on leveraging the React library.
- Engaging in collaborative endeavors, I found profound enjoyment in the synergy of teamwork, enhancing both my skills and the overall project outcomes.

Full-Stack Engineer

GoIT   June 2023 - March 2024

- Studied at Fullstack courses, studying HTML, CSS, JavaScript, React.js, and Node.js.
- Have several sites in my portfolio that I implemented unassisted and some with a team.
- On the project, I held the role of Team Lead. Had especially good and pleasant communication with the team and was satisfied working with team.

Full-Stack Engineer

Logos It Academy   February 2019 – June 2019

- Completed a six-month programming course, during which actively studied Java and JavaScript, as well as HTML, CSS, and MySQL.
- In working with tutors, we always found a common language and there was a pleasant atmosphere.
